Berna Clamps... for Delicate Assembly Work

Lightweight and strong, Berna Clamps hold delicate items together securely while glue dries. Just slide the 3-1/2" long polycarbonate jaws along the space-age carbon-fiber beam to adjust the pressure. The soft, non-stick silicone tips are heat resistant and hold both flat and curved surfaces without marring. Set includes two clamps with 8" beam and one with 3" beam, plus hardware to connect the beams together to clamp large objects.

#84101 Berna Hobby Clamp Set

"Suitcase Connectors" Eliminate the Stripping and Soldering of Under-Layout Wiring

Dubbed "Suitcase Connectors" by expert model railroaders, these Insulation Displacement Connectors (IDC's) let you connect track feeder wires to main bus (power supply) wires without having to strip or solder. Simply place the connector over the wires and crimp the metal tab with pliers. The tab pierces the insulation and locks the wires together. Snap the lid shut, and you're done! Our IDC's are top-quality 3M Scotchlok brand.

#84022 Suitcase Connectors
(IDC #905 Red) for bus sizes #14-18
(max insulation OD .145") with feeder
sizes #18-22 (max insulation OD .110").
Package of 25 **\$7.95**
4 or more packages **\$7.15 each**
