April 2012 marks the 100th Anniversary
of the sinking of the RMS Titanic

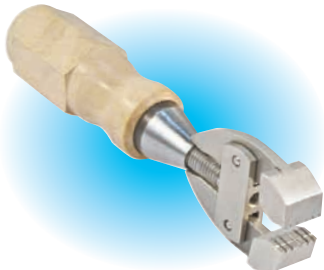

Minicraft Models marks this anniversary with the release of the new RMS Centennial Titanic. This kit contains over 400 separate parts molded in what is recognized as the most popular scale for plastic model ships. The kit features a one piece hull, engraved deck and hull detail, decals, fine rigging line and commemorative "Centennial" plaque. When completed, the model measures almost 30" long, which makes it the largest, most accurate plastic model of the Titanic available anywhere.

#85205 Minicraft Models R.M.S. Titanic Centennial Edition 1/350 Scale Model Kit... List \$79.99... Our Price **\$56.45**

Super Hand Vise

Six grooves cut into the jaw surfaces let you securely position and hold wire while you shape and assemble. Useful for holding other metal, plastic and wood shapes as well. Turning the hardwood handle tightens the steel jaws. Hole through handle lets you hold long stock.

#85139 Super Hand Vise **\$22.95**

Easy-to-Assemble Gearmotors for Animation and Robotics

Use these miniature gearboxes to revolve model signs, operate miniature construction equipment, rotate circus displays and more! Easy assembly steps and illustrated instructions show you which gears to select for the output speed you need. Gearboxes include housings with mounting feet, an assortment of gears, battery-powered motor,* and assembly hardware. Batteries not included. Overall size varies, but all gearmotors typically fit in the palm of your hand. Select from table below.

#85091

Item #	Tamiya #	Description	Gear Type	No load rpm at nominal motor voltage*	Price	3 or more
