#60295 TOOL ORGANIZER
ASSEMBLY INSTRUCTIONS

It will take just a few minutes to prepare your Tool Organizer for use. Only a pencil is needed.

1. Peel and stick one rubber foot to each of the circles molded into each corner of the bottom cover.

2. Insert two large tubes (2-1/2” long) into holes marked A in the photo below.

3. Insert four small tubes (2-1/2” long) into holes marked B.

4. Insert seven small tubes (4” long) into holes marked C.

5. Insert eight small tubes (5” long) into holes marked D.

Position the bottom of each tube between the guide rails molded into the inside of the bottom cover: Insert the eraser end of a pencil into the tube and use as a tool to shift the bottom end into position.
